CAMPTON HILLS' RESIDENTS UNITE TO HELP FLOODING VICTIMS

Campton Hills – A record eight inches of rainfall resulted in heavy flooding throughout the Village and surrounding areas. Local residents, Boy Scout troops, community leaders and church members all joined together to help their neighbors protect their homes from flooding by filling, delivering and placing sand bags. Trustee Andersen said, “The quick response for help and mobilization of volunteers really paid off. Village Hall became the emergency response center and Village officials coordinated the efforts.”

Campton Township Trustee Christian Boissonnas said, “This response would never have happened without the Village.” Kane County Board Representative Barb Wojnicki helped man the phones at Village Hall and said, “I am really proud of the way our community united to help one another.”

Village President Smith would like to thank Don Bryant and Kane County Office of Emergency Management as well as Sam Gallucci, Campton Township Highway Commissioner for their assistance in helping our Village respond to this rainstorm.
